Continuation of Substance of Interview including description of the general nature of what was discussed: Upon examiner reconsideration of applicants prior arguments in the remarks of 9/2/2004, discussed how claim 1,11,17,22 requires elements from dependent claims 2,4,5 (and associated similar claims, see examiner amendment). The examiner proposed appropriate changes via examiner amendment, into the claims that would sufficiently narrow the scope and distinguish the invention for allowance. Mr. Burwell got the approval of the applicant, and with the exception of the claim 5 limitation, approved the claim limitations and associated "structural" grammatical changes..
